YouthLivingLabs is a 24-month project, co-funded by the ERASMUS-YOUTH-2024-CB of the European Union.
From Pitch to Placement!

On the Road to Real Internships!
Following the Pitching Workshops held across all five Youth Living Labs, the best-performing teams have been matched with the companies whose challenges they solved — and are now securing internship placements to bring their prototypes to life.

With training and mentoring behind them, our pitching winners are now settling into their host companies across Spain, Greece, Cyprus, Jordan and Egypt, turning their prototypes into real workplace projects. Mentors stay closely involved to support the transition. More placements are being confirmed by the week — stay tuned for the full picture in our next update!
